

**WHAT WOULD YOU DO?**

An aerial photograph of a coastal city, likely Miami, showing a dense cluster of high-rise apartment buildings along a waterfront. The water is a vibrant turquoise color, and several small boats are visible in the harbor. The sky is a deep blue with some light clouds. The text '50 BILLION tCO2 2021' is overlaid in the top right corner in a large, white, sans-serif font.

CLIMATE CHANGE

### How a new global carbon market could exaggerate climate progress

The rules approved at the COP26 climate conference include major loopholes, and could spur the creation of questionable carbon credits in other markets.

Air France launches CO2 emissions reduction strategy – 'Air France ACT'

19 Apr 2022 by Tom Otley

### AIR FRANCE GROUP CARBON FOOTPRINT IN 2019

Est. 20 millions tons CO2

Category	Percentage	Value
DIRECT EMISSIONS (Fuel combustion)	83%	16.2 mTCo2
INDIRECT EMISSIONS (Energy related to the production and transport of fuel)	17%	3.4 mTCo2
PRODUCTION OF ELECTRICITY CONSUMED	0.04%	0.008 mTCo2

LEARN MORE

Air France has launched a new CO2 emissions reduction strategy called 'Air France ACT'.

Building on earlier commitments, this new strategy sees the airline aim by 2030 for a reduction in CO2 emissions of 30 per cent per

## The Latest Farm Product: Carbon Credits

Global cropland has the potential to sequester as much as 570 million metric tons of carbon per year. New projects that pay farmers to adopt climate-friendly practices could help.

# CLIMATECOIN IS ROOTED IN SUCCESS

## SCALABILITY

High-quality carbon removal, avoidance & reduction.

Projects with real climate impact, enabling appropriate funding.

## SOCIAL EQUITY

Democratize supply by ensuring equitable financing opportunities to carbon credit suppliers (project developers).

## IMPACT

Avoid pure speculation on carbon credits to incentivize the prioritization of real world impact projects.

## INTEGRITY

Contribute to enhancing the integrity of carbon markets and guiding users towards high-quality standards.

## ACCESIBILITY

Democratize demand by allowing buyers easy access to offsetting and climate-friendly savings opportunities.

# UNLOCK THE WEALTH OF A BETTER WORLD

Climatecoins are backed **1:1 by high-quality carbon credits**

An investment in Climatecoin **is an investment** in sustainable projects that generates a true impact in the planet and towards the climate crisis.

# THE FUTURE OF CLIMATE FINANCE IS BRIGHT.

The voluntary carbon market is an emerging asset with a **stable supply** and demand is expected to **increase**

**15X** by 2030  
**100x** by 2050
