

Our world is getting
more complex by the day—
you need to stay ahead.

S&P Global

Data increasing exponentially.

Energy in unprecedented transition.

A global shift to electric vehicles.

Changes reverberating across entire supply chains.

New investment possibilities and new ways
of understanding risk.

We bring you the Essential Intelligence to make it all happen.

You rise to those challenges. Seize those opportunities.
And never stop moving the world forward.

Our Capabilities

Ratings & Benchmarks

We partner closely with market participants to develop ratings and benchmarks that are the market standard sources for measurement, evaluation and comparison, helping people make assessments and manage risk and return.

Data & Analytics

We harness both proprietary and external data with experienced analysts and advanced analytics, providing clients the right forecasts and tools to uncover insights and unlock new opportunities.

Technology Solutions

We partner with customers to enhance workflows, increase efficiency and optimize business processes by leveraging software, platforms and managed services.

Research & Insights

S&P Global is the go-to expert for deeper industry insights and news. We provide opinions and research on current challenges such as ESG compliance and supply chains, and offer education, webinars, and marquee events like CERAWeek.

Essential Intelligence
is critical to our
customers across the
financial spectrum—

We're here to help you Accelerate Progress.

Because today, the right decisions mean so much more.

They mean progress, for your organization and for the world.

Together, we are a
strong combination
of complementary
powerhouses.

S&P Global

We're expanding our core capabilities and evolving new ways to partner with you.

We're embedding **workflow & solutions** across our offerings and enriching our data.

We now have a complete perspective on **energy transition**.

Our **private credit risk information** has never been more comprehensive.

We're expanding our view on **mobility**, through a dedicated division with deep insight across the entire automotive value chain.

Our new **engineering solutions** help make the world run faster, cleaner, safer and smarter.

Our six divisions focus on distinct markets—and together, they deliver unmatched breadth and depth.

We're always uncovering new opportunities around the business.

Our deep understanding of the intersections of **credit, counterparty and risk management** makes us a critical partner.

We meet growing demand for **private market** data by drawing together market participants and harnessing shared insights.

We're helping organizations build resilience and progress wherever they connect with us, with **energy transition** offerings across our six divisions.

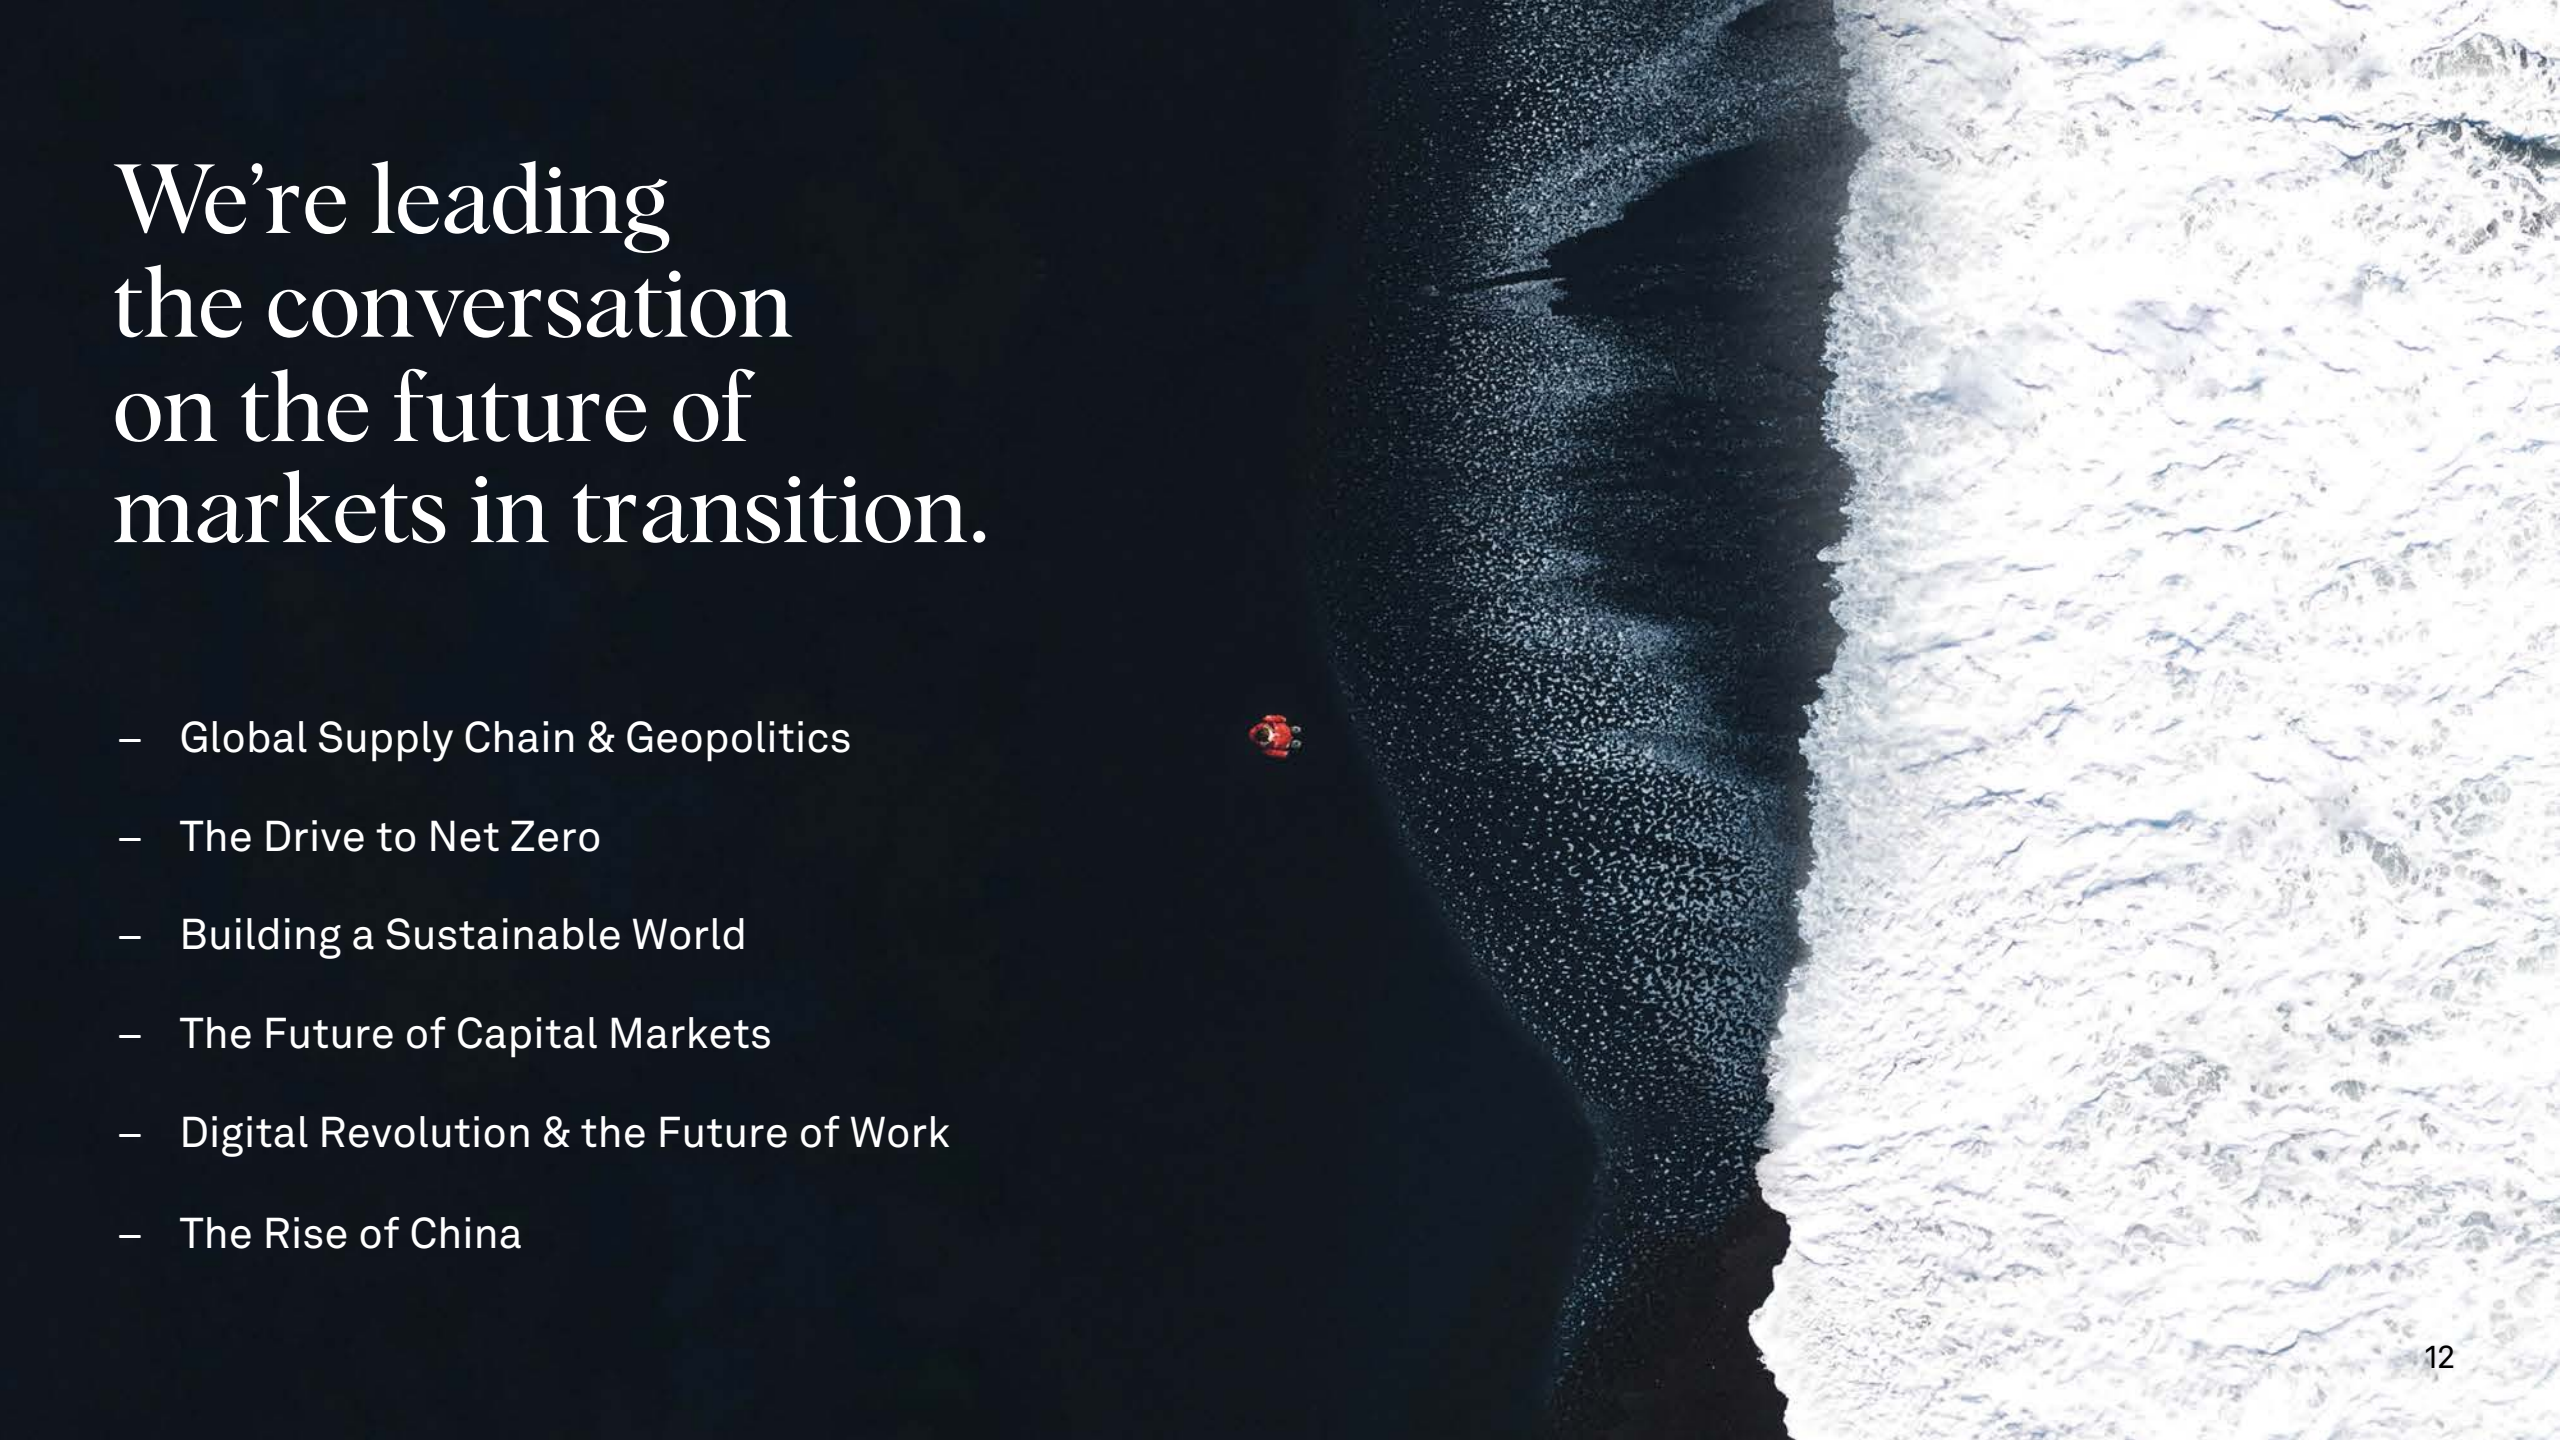

S&P Global Marketplace shares premium fundamental and alternative datasets seamlessly via Cloud, Data Feed and API Solutions, along with expert analysis you won't find anywhere else.

Our expanded **ESG benchmarks** now include ESG fixed income indices, opening up your outlook.

We're investing in emerging markets and technology, such as **China** and **automation** through our **Kensho** offering.

A vertical photograph of a diver in a red and black suit swimming in the dark ocean. A large, white, turbulent wave is crashing over the surface on the right side of the frame, creating a stark contrast with the dark water. The diver is positioned in the lower-middle part of the frame, looking towards the viewer.

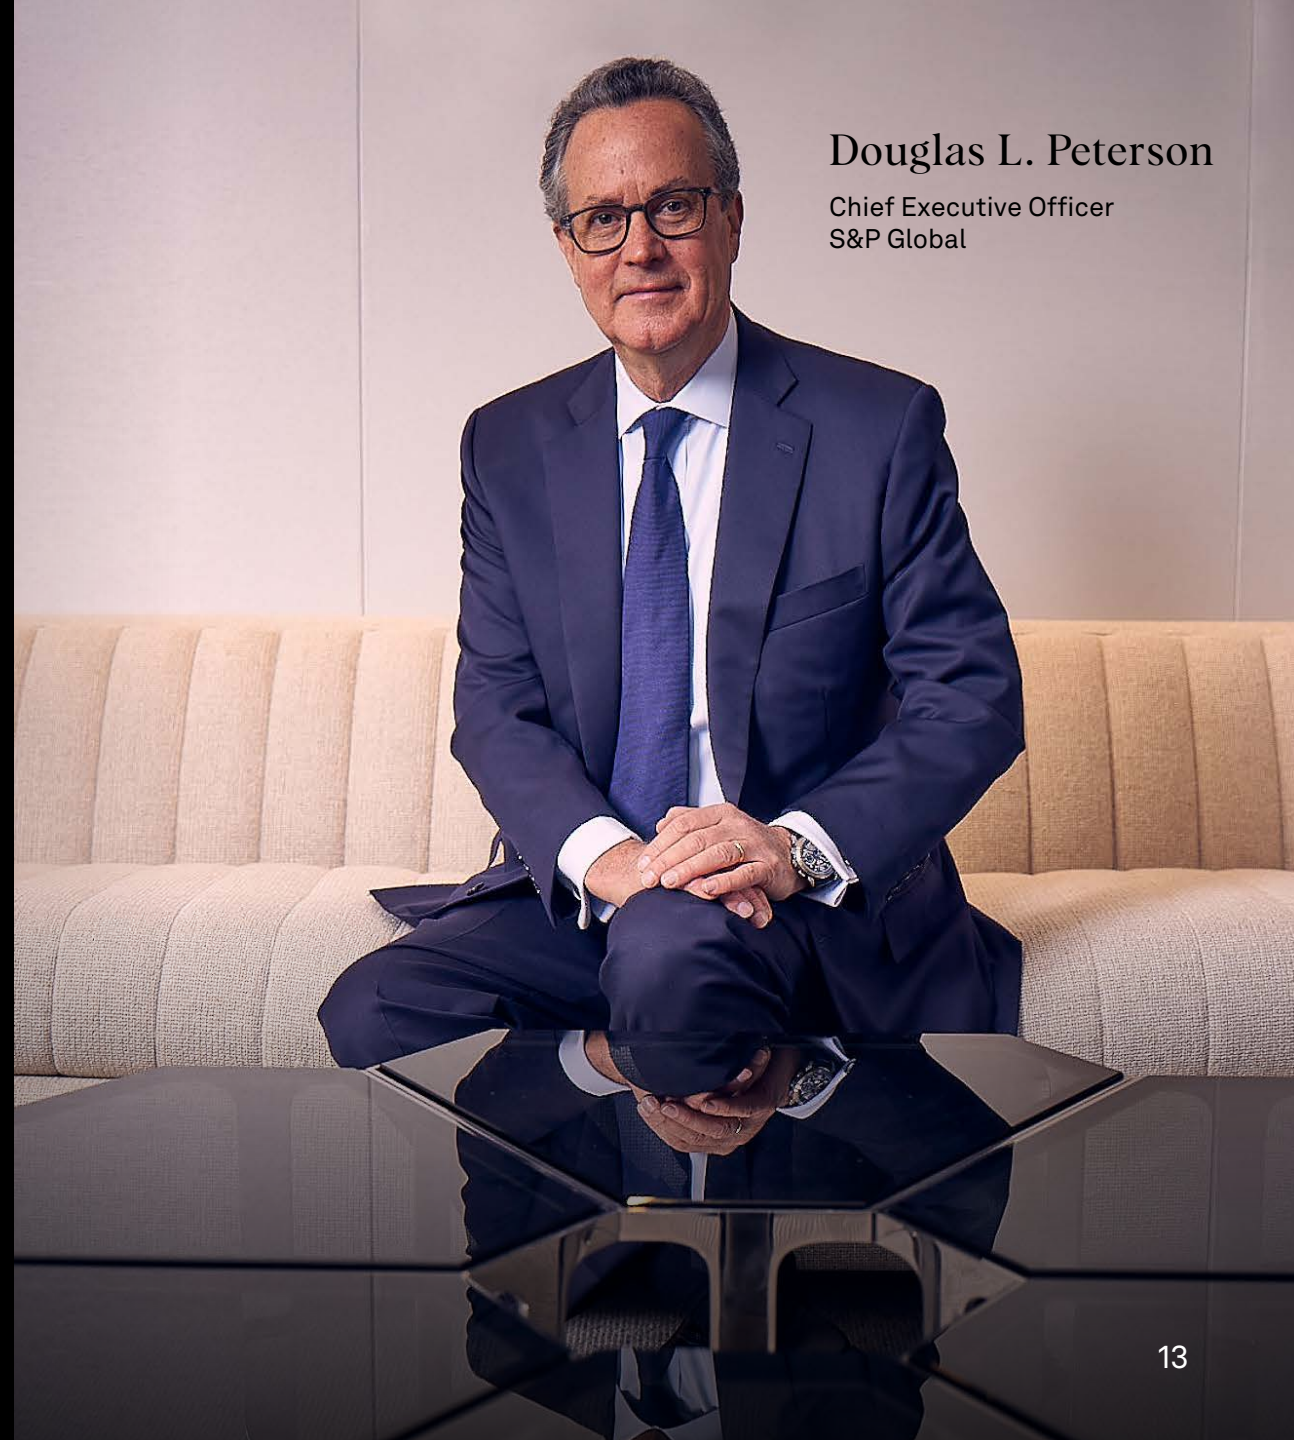

We're leading the conversation on the future of markets in transition.

- Global Supply Chain & Geopolitics
- The Drive to Net Zero
- Building a Sustainable World
- The Future of Capital Markets
- Digital Revolution & the Future of Work
- The Rise of China

Our leaders help us shape the future.

Our leaders are always seeking, striving and finding new value.

Their experiences in every sector of the industry is why they are frequent participants in discussions hosted by leading international organizations including the **World Forum, IMF and the Institute of International Finance.**

Douglas L. Peterson

Chief Executive Officer
S&P Global

Our difference is our people.

Data, insights and technology mean nothing without the experts to bring it all together and share what they find. And S&P Global means nothing without our people, who serve our customers every day through their commitments to **discovery, partnership and integrity.**

The result: Momentum for our business.

A wide-angle photograph of a vast desert landscape. In the foreground, a large, smooth sand dune with fine ripples in the sand slopes down towards the right. A person wearing a dark jacket and a blue headscarf is walking away from the camera along the crest of this dune. To the right of the dune, a sandy beach meets the ocean. White waves are breaking onto the shore, creating a white foam. The ocean extends to the horizon under a clear, light blue sky. The overall scene is bright and open, with a strong sense of scale and solitude.
