GC's FOUR WORKSTREAMS

The GC's 4 workstreams complement each other and are designed to collectively ensure that resources are channeled effectively through the Green Coalition's members to support sustainable development in the Amazon region.

Workstream 1

Mapping, Integration and Collaboration

Workstream 2

Investment Guidelines and Frameworks for the Amazon

Workstream 4

Resource Mobilization for the Amazon Region

Workstream 3

Financial
Products and
Technical
Support to GC
members
